

# Resource Reservations

A flexible approach to sharing common resources.

## Real-time Resource Availability and Allocation

A tool to simplify the process of booking shared resources.

### Managers can:

- Define your own resources – unlimited amount
- Including conference rooms, freight elevators, loading docks, etc.
- Allow automatic approval of requests
- Alternatively allow approve/deny capability
- Build in extra amenities and/or cost to reserve
- Can also be used for fleet vehicles

### Requesters can:

- View a common calendar to see available resources
- View if already reserved but not who reserved it
- Request use of a specific resource at a specific time
- Request amenities to go with the resource
- Reserve fleet vehicles
- Schedule recurring reservations

**Flexible. Powerful. Profitable.**

Shared resources, if properly managed, can lead to greater productivity in an organization. If not properly managed, the process can often result in confusion and conflict.

Whether you have conference rooms, freight elevators, loading docks, fleet vehicles, or any other type of resource, the resource reservations system makes it easy to manage use and availability among multiple requesters and managers.

## Resource Reservations

- For any shared resource
- Calendar viewing
- Permission based access

## Results:

- Organized use
- Real-time availability
- Efficient allocation of resources
- Enhanced service delivery means happy users
